About us

Our history in the gift industry began i**n 2006 as one of the first companies in Poland** to offer personalized products. Initially, we operated in seaside towns, meeting the needs of summer tourists. Over time, our sphere of influence grew – first in Poland, and later throughout Europe.

Today, our products are available not only in stores and stands in **Poland, but also in Germany, Austria, Scotland, France, Spain**, and recently also in Italy. We serve both individual customers and retail chains.

We are constantly developing our offer - in recent years, we have also added souvenirs and gift items that combine memories with personalized style.

We create most of our products from scratch in our own workshop, which allows us to ensure the highest quality and respond quickly to the expectations of our customers.
